

1. Click **Tools** and then **Options**.

2. Under the **Getting Started** tab, enter the following:

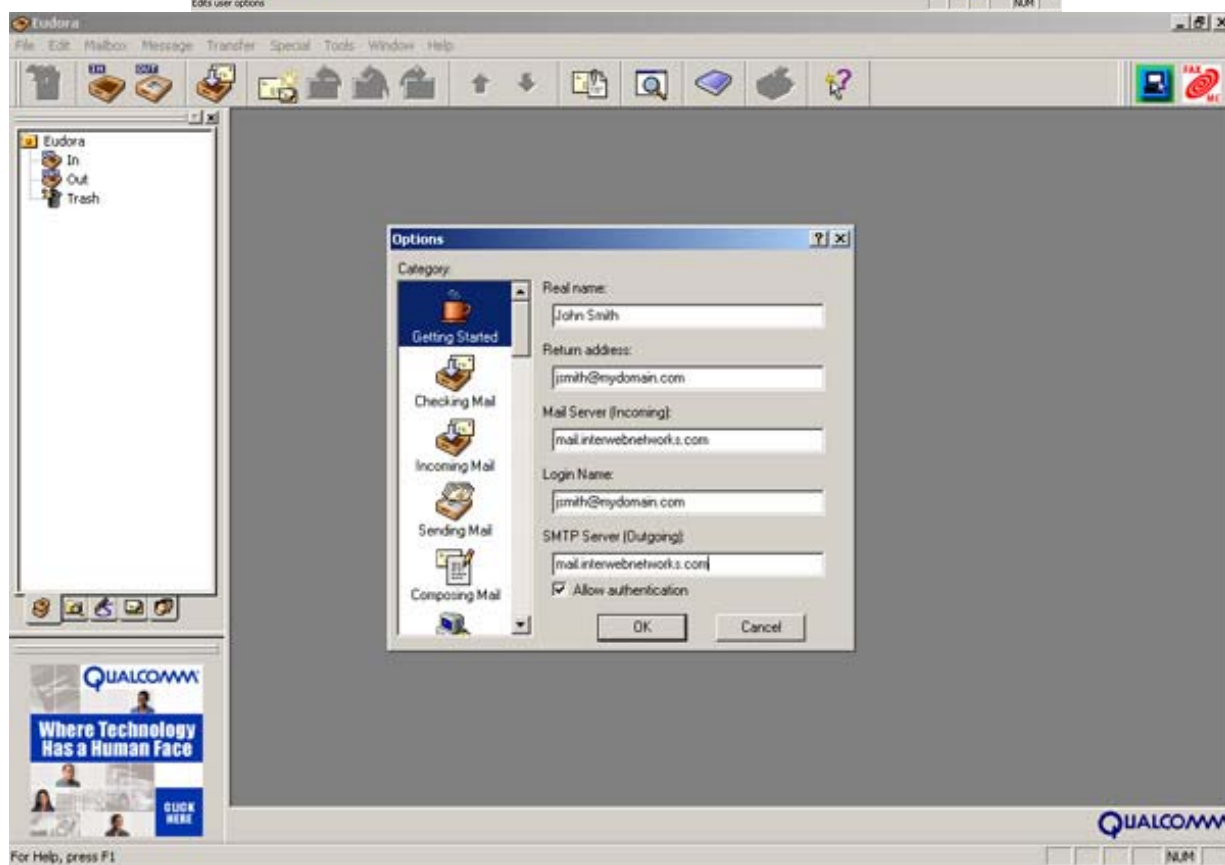

**Real name:** Enter your first and last name.

**Return address:** your full email address.

**Mail server (incoming):**  
Enter either  
mail.yourdomain.xxx  
(replace yourdomain.xxx  
with the domain name being  
hosted) or  
mail.interwebnetworks.com.

**Login name:** Enter your  
full email address.

**Mail server (outgoing):**  
Enter either  
mail.yourdomain.xxx  
(replace yourdomain.xxx  
with the domain name being  
hosted) or  
mail.interwebnetworks.com.

Make sure Allow authentication is checked.

You are now ready to begin sending and receiving email!
